

EGON BLUETM

CUTTING EDGE

STOCCO

HMI SOLUTIONS FOR ALL TYPES OF CRANES, MATERIAL
HANDLING & EARTHMOVING EQUIPMENT

FEATURES

Human Machine Interfaces (HMI) customized as Automatic Safety Data Information Systems

Customized for Crane Safety & Productivity

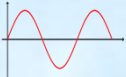

Monitors safety on all hooks: Main, Aux or Whip Line, Fixed, Slotted, Snatch Block & Manual Sections in Telescopic Cranes

Indicates all Safety parameters: Load, Safe Load, Radius, Length, Angle, Falls etc.

Percentage Bar Graph for Factor of Safety

Analog Inputs for Load Cells, Pressure, Length, Angle, Tilt, RPM and other Analog Sensors

Digital Inputs for Limit Switches and Digital Configurations

Configurable Audio-Visual alarms and hydraulic / pneumatic / electric solenoid control and cutoff interfaces

Remote upgrade & data-logging enabled through 3G data interface (Optional)

Android App connectivity for crane supervision & customer support (Optional)

Highly Accurate & Reliable

On Screen Diagnostics and Self Tests

Pan-India Warranty & Support

CE Certified

TECHNICAL SPECIFICATIONS

Processor	High Speed Computing DSP
Display	4.3 Inch Color TFT Display with Rich Graphics
Indications	Load, Safe Load, Length, Angle, Radius, Duty, Falls, Alarms & Errors. Engine and Performance Parameters
Memory	1,000 Load – Radius Curves, Calibration Tables, 6 Months of Crane Logs
Sensor Interfaces	Pressure Transducers (Dual OCV capable) Load Cells Inclinometers Cable Drum based Length Sensors Solenoids and Limit Switches
Alarms & Cutoff	Approach, Overload, Rope Limit, Over Hoist & Motion Cut Buzzer based Audio Alarm 12 V / 24 V Hydraulic Cutoff Solenoid Control
User Interface	High Performance Switch Panels with Configurable Buttons
Override	Dual switches for manual override
Power Supply	9 - 30 V DC with Reverse Polarity Protection Surge Protection
Ingress Protection	High Quality Sealed Housings with IP 65 Protection
Operating Temp	0 to +60 Deg. Celsius
Storage Temp	-20 to +80 Deg Celsius

ABOUT US

Egon Blue is a young, dynamic and enterprising organization with a vision to provide cutting edge solutions that have the highest quality, maximum customer satisfaction and the lowest cost of ownership. The core team comprises of experienced professionals in the areas of Electro-mechanical Instrumentation Engineering, Operations Management and possesses over 5 decades of industry experience in the material handling instrumentation sector.

ISO 9001:2015 certified, with expertise in designing intelligent embedded, mobile and software applications, we closely work with our customers throughout the entire product lifecycle right from design conceptualization to field installation support and deliver the highest standards of quality and innovation.

Our USP lies in design, development, prototyping and manufacturing of engineering products delivering customized solutions at minimal cost to the customer ensuring accelerated development and reduced time to market.

PRODUCTS & SERVICES

HMI Displays for All Types of Material Handling & Earthmoving Equipment

Safety & Productivity Systems

Sensors & Instrumentation Interfaces

Custom Product Design & Development

Electronic & Electro-mechanical System Design & Manufacturing

User Interfaces, Instrument Clusters & Custom Dashboards

Android App Development and Integration

Electronic PCB Design, Development Support & Assembly Services

Installation, Commissioning & Warranty Support

System Up-gradation & Warranty Renewal

Spare Parts for SLIs manufactured by all Indian & Overseas Manufacturers
